

Advanced Diploma of Occupational Health and Safety

Qualification Description

The Advanced Diploma of Occupational Health and Safety reflects the role of individuals who analyse, design and execute judgements using wide-ranging technical, creative, conceptual or managerial competencies. Their knowledge base may be specialised or broad. These individuals are often accountable for group outcomes. This qualification provides knowledge and skills in areas including: OHS audit and analysis and the application of OHS principles and processes.

Award

The Advanced Diploma of Occupational Health & Safety BSB60607 provides you with a nationally recognised qualification through high quality, flexible, customised training that will have a positive impact on your career and business

Our Trainers

Outsource Services will provide experienced training staff that inspire you to achieve great things. All our trainers are approved under the Australian Quality Training Framework and are experienced professionals as well as trainers!

Delivery

We offer flexible training delivery either face to face, self paced or in blended delivery modes. We will tailor the delivery to meet your needs.

Prior learning and current competency will be taken into consideration for all participants.

Course Duration

This course is a competency based training program and as such the duration of the course is to be determined on individual levels of current competence and RPL. However, expect to take around a month per module for most of our courses.

Entry Requirements

No entry requirements apply to this qualification.

Career Opportunities

This program is aimed at developing your skills for a management role in Occupational Health and Safety.

Applicable occupations are:

- Occupational Health and Safety Advisor
