

Advanced Diploma of Project Management

Qualification Description

Advanced Diploma of Project Management can transform both your performance and the capacity of your organisation to analyse, design and execute judgments for project outcomes. Project management will help any organisation to radically improve its ability to define and manage their projects, whilst maximising productivity.

Award

Advanced Diploma of Project Management BSB60707 provides you with a nationally recognised qualification through high quality, flexible, customised training that will have a positive impact on your career and business.

Our Trainers

Outsource Services will provide experienced training staff that inspire you to achieve great things. All our trainers are approved under the Australian Quality Training Framework and are experienced professionals as well as trainers!

Delivery

We offer flexible training delivery either face to face, self paced or in blended delivery modes. We will tailor the delivery to meet your needs.

Prior learning and current competency will be taken into consideration for all participants.

Course Duration

This course is a competency based training program and as such the duration of the course is to be determined on individual levels of current competence and RPL. However, expect to take around a month per module for most of our courses.

Entry Requirements

No entry requirements apply to this qualification
